

# Can-Am Geomatics

*Pointing you in the right direction*

## Overview

Can-Am is an innovative company. Our goal is to remain ahead of the industry in our ability to effectively apply advanced technologies.

We consistently provide the highest quality and most cost effective services to our clients. Our clients include resource and pipeline companies, governments, and construction, engineering and development firms.

Can-Am has been involved in a variety of projects for these clients since 1973, including wellsite and legal surveys, location surveys for roads and pipelines, control surveys using GPS and conventional methods, subdivision surveys and engineering construction surveys.

Our continued vision is to be the Geomatics provider of choice through conducting business with safety, honesty, integrity and professionalism.

### Can-Am Geomatics Head Office

900, 340 – 12 Avenue SW  
Calgary, Alberta, T2R 1L5  
Ph. 403 269 8887  
Fx. 403 269 8550  
Toll free. 800 478 6162

## Services

- Power & Utility
- Construction Surveys
- Engineering Surveys
- Well Sites
- Pipelines
- Oilsands
- Pipeline Integrity

## Technology

### LiDAR – Light Detection & Ranging

Can-Am Geomatics has extensive experience using LiDAR. Using custom tools developed by Can-Am to work quickly with large amounts of LiDAR information, we can host real time project planning meetings to determine site locations, route selection, site access, and area features. The elevation data can be used to produce contours, calculate volumes, perform slope analysis, and create cross sections along with any number of measurements.

## Experience

Can-Am's experienced survey and construction team provide a variety of services and technology to effectively manage every stage of your project.
